

PERSONAL BREATHALYSER

ALCOHOL TESTING SYSTEM FOR PERSONAL USE AS/NZS 3547:2019 CERTIFIED

Alcotest 4000 is a compact Breathalyser designed specifically for personal use.

With this device you can test yourself at any time whether after a business lunch, at a party or the morning after a big night.

So when you are ready to drive, grab the 4000 it will be ready to use within seconds, and if you ensure that you follow the recommendations of waiting the allotted time before testing and then testing again after a 10 minute break, you can be relaxed when faced with a booze-bus or workplace testing by your employer.

Thanks to its compact design, the Alcotest 4000 fits into a trouser pocket. Therefore you can take a measurement discreetly – no matter where you are.

All measurement functions are controlled with a single button. Easily understandable full-text messages on a large, backlit display that guide you through the alcohol test.

The 4000 features & price make it an excellent choice for a personal breathalyser.
