HLTPAT 005 -Collect Specimens for Drugs of Abuse Testing

Workplace Drug and Alcohol Testing Training:

- Oral Fluid
- Urine
- Breath Alcohol

NATIONALLY RECOGNISED & CERTIFIED

The most recent course available is the 'Certified Workplace Drug & Alcohol Collector Training'.

Because most certified courses require attendance in person, which can be expensive and inconvenient, CMM Technology™ has developed an online/remote training version that can be done at work or in your own time saving valuable time and money.

Fully compliant and nationally recognised, this online course is extremely popular as you can work at your own pace.

It consists of four online modules with multiple choice Q & A's and three practical assessments that we send to you, utilising hands-on scenarios.

You will be trained in the special procedures that apply for drugs of abuse testing.

This unit describes in detail, the skills and knowledge required to:

- confirm collection requirements
- prepare client and equipment
- collect specimens via urine and/or oral fluid
- conduct a breath alcohol test

This unit applies to individuals working in collection centres, hospitals, other healthcare environments and workplaces where drugs of abuse testing takes place.

Delivered in agreement with Business Planning Services. An RTO (No.52705) operating under the Australian Skills Quality Authority (ASQA)

NATIONALLY RECOGNISED TRAINING

"Distance learning at work or in your own time, fully supported by qualified trainers."
