

Alcolizer WM4

WM4 Wall Mount Breathalyser

QUALITY
ISO 9001

ENVIRONMENT
ISO 14001

HEALTH & SAFETY
OHSAS 18001

FAST THROUGHPUT

The WM4 incorporates technology and know-how developed by Alcolizer in Australia.

Over 20 million alcohol tests are conducted annually by Alcolizer Australian made instruments.

KEEP YOUR WORKFORCE AT WORK WITH ACCURATE, FAST READINGS

The stylish, robust Wall Mount 4 will operate 24 hours a day in conditions ranging from -5°C to $+40^{\circ}\text{C}$. With on-board NATA Certified reference gas and daily auto self-calibration, the WM4 is arguably the most accurate alcohol breath tester, day-in, day-out anywhere in the world. Australian Standards allow Alcolizer to service yearly and still meet AS3547.

WM4 can process up to 300 workers an hour with a 1 second response time on a 0% BAC reading.

UNPARALLELED CONNECTIVITY

The WM4 is the only Wall Mount on the market today running unparalleled connectivity options supported "out-of-

the-box" with an on-board ARM Cortex-A8 CPU and Customer Programmable Colour Screen. It has a raft of connectivity options to suit almost every requirement including: Keypad, Swipe card, WIEGAND, Live Secure Reporting, USB and RS232, just to name a few.

SITE CONFIGURABLE TO SUIT YOUR AOD PROGRAM

The Alcolizer Wall Mount 4 is designed to support your Drug and Alcohol testing programs. Configurable to fulfil your program requirements from simple self-test stations and Alcohol test sign-in stations for visitors/contractors through to fully integrated staff management systems.

You can set the unit to store your test data, send an email when an exception test occurs, direct your employee should they fail the test, integrate with your site management system and *ultimately deliver relevant analysed data live to your computer and that of your management team.*

KEY DETAILS

- Self-calibrates every 24hrs
- Unlimited Testing
- Ethernet interface
- Colour LCD display
- 24 Month Warranty
- Made in Australia
- Fast, Accurate, Reliable

KEY PRODUCT INFORMATION:

KEY FEATURES

- ◇ Self-calibrates every 24hrs
- ◇ Instant recovery for zero test
- ◇ Unlimited testing
- ◇ Ethernet interface
- ◇ Australian designed and made
- ◇ RS232 serial ports
- ◇ Manufactured to AS3547
- ◇ 2 year standard warranty
- ◇ Colour LCD display
- ◇ LAN connectivity in base model
- ◇ Customizable safety and educational messages.

OPTIONS

- ◇ Numeric key pad
- ◇ Identification camera
- ◇ Wi-Fi
- ◇ Cellular data
- ◇ Printer
- ◇ Swipe card
- ◇ **AlcoCONNECT**
- ◇ Separate large straw dispenser
- ◇ **LIFETIME WARRANTY** when combined with **AlcoCARE™**

ALCOCARE™

ALCOCARE™ STANDARD

- ◇ Service charge plus parts and 90 day limited warranty.

ALCOCARE™ PREMIUM

- ◇ Includes Labour/Parts and a Life Time Warranty with return to base service and for your convenience, an onsite option.

SERVICE AND SUPPORT FROM THE ORIGINAL EQUIPMENT MANUFACTURER

Alcohol breath test units are a critical component in the management of the health and safety of companies, personnel and site visitors. Workplace Health and Safety is a vital business component with no room for compromise.

AlcoCARE™ is a customer support service that provides fast, professional product and technical support for your Alcolizer products, either on-site or through our efficient return-to-base calibration in our service centre. Our technicians are factory certified and trained under the guidance of the original design team.

Trust Alcolizer Technology the original equipment manufacturer.

AlcoCONNECT delivers essential operational information direct to decision makers' desktops or mobile devices anywhere in the world.

AlcoCONNECT creates an effective, accurate and versatile management tool that enables management to become instantly aware of alcohol and drug test results and take prompt action if required under your AOL policy. Dashboards provide at-a-glance KPIs, providing the inter connectivity of people, process and technology, to improve a business' capability and confidence on a day-to-day basis to provide a safe and compliant work place.
